UN Day marks the anniversary of the entry into force in 1945 of the UN Charter. With the ratification of this founding document by the majority of its signatories, including the five permanent members of the Security Council, the United Nations officially came into being.

*"UN Day is a day on which we resolve to do more. More to protect those caught up in armed conflict, to fight climate change and avert nuclear catastrophe; more to expand opportunities for women and girls, and to combat injustice and impunity; more to meet the Millennium Development Goals."*

*Secretary-General Ban Ki-moon*  
*Message on UN Day, 24 October 2010*
